

# Material Safety Data Sheet

**Material:** BJ-65  
**Version:** 20190211-B

## 1: Identification of the substance / company information

### 1.1 Product identifier

Commercial product name: BLJ-65  
Product identifier: Poly(vinyl chloride-co-vinyl acetate)  
CAS No.: 9003-22-9

### 1.2 Manufacturer / Supplier Identification

Manufacturer/distributor: YUNNAN BOJUN CHEMICAL CO.,LTD  
Street/POB-No.: 17th floor, Wanpai center, Longhua road, Panlong district  
Postal code/city: 650224 Kunming  
Country: P.R. China

### 1.3 Emergency telephone number

Telephone: +86 871 63332488  
Telefax: +86 871 63859977

## 2: Hazards identification

### 2.1 Hazards Category

Polyvinyl Chloride belongs to no category of hazards.

### 2.2 Hazard warning for health

Polyvinyl Chloride contains no significant toxicity, but should avoid to breath a lot of dust or contact with skin and eyes.

### 2.3 Environmental influence

Avoid arbitrary dismissed which caused powder float in the sky, thus polluted the air.

### 2.4 Physical and chemical hazard

Avoid contact with fire source, cause burning risk.

### 2.5 Main symptom

Feel a slight discomfort when eyes contact, and have difficulty in breathing when inhaled.

### 2.6 Other

None

## 3: Composition / Information on ingredients

### 3.1 Chemical characteristics

English Name: Poly(vinyl chloride-co-vinyl acetate)  
CAS No.: 9003-22-9  
Chemical formula:  $(C_2H_3Cl)_x(C_4H_6O_2)_y$

## 4: First aid measures

- 4.1 Skin Contact: No special measures required.  
Eye Contact: Rinse immediately with plenty of water. Seek medical advice in case of continuous irritation.  
Inhalation: Remove from exposure area to fresh air immediately. Give artificial respiration if no breathing.  
Get immediate medical attention.

## 5: Fire aid measures

### 5.1 Suitable extinguishing media

water, foam, carbon dioxide, extinguishing powder.

### 5.2 Chemical special risks

Non-combustion

**5.3 Heat generates toxic fumes of the following**

-hydro chloride, -carbon monoxide, -carbon dioxide

**5.4 Special protective equipment for fire fighting**

wear self-contained breathing apparatus.

**6: Accidental release measures**

**6.1 Person-related precautionary measure**

Do not inhale dust use dust mask; Ensure good ventilation and local exhaustion of the working area.

**6.2 Methods and material for containment and cleaning up**

Damp down, absorb mechanically and dispose according to local/state/federal regulations.

**7: Handling and storage**

**7.1 Precautions for safe handling**

Avoid dust formation. Ensure adequate ventilation.

Observe the general rules of preventive industrial fire protection and dust explosion protection.

**7.2 Storage**

Observe precautionary measures against dust explosion.

Do not store together with combustible substances.

**8: Exposure controls/personal protection**

**8.1 Breathing system protection**

Wear self-inhalation filter type dust mask when dust density in the air is above the standard.

**8.2 Eye protection**

Wear chemical safety glasses.

**8.3 Hand protection**

Protective gloves are not normally required for handling the product.

**8.4 Skin protection**

not required.

**9: Physical and chemical properties**

Form:	powder	Shape:	white powder
Color: white	white	Odor:	odorless
pH value:	not applicable	Melting temperature:	not applicable
Decomposition temperature:	100°C	Flash point:	not applicable
Autoignition temperature:	not applicable	Explosion limits:	dust explosion class St1
Vapor pressure:	--	Vapor density:	not applicable
Density (23°C):	1.4 (water=1)	Solubility in water:	virtually insoluble

**10: Stability and reactivity**

**10.1 Stability**

This material is considered stable under specified conditions of storage, shipment and / or use.

**10.2 Conditions to avoid**

not applicable

**10.3 Hazardous decomposition products**

Thermal decomposition may yield the following: -hydro chloride, -carbon monoxide, -carbon dioxide

**11: Toxicological information**

**11.1 No toxicological test data is available for the whole product.**

## 11.2 Further toxicological information

By handling the product for many years no damage to health was observed.

## 12: Ecological information

For the product as a whole, no test data is available.

## 13: Disposal considerations

### 13.1 Waste treatment methods

#### Material

Observe local/state/federal regulations.

#### Uncleaned packaging

Completely discharge containers (no tear drops, no powder rest, scraped carefully). Containers may be recycled or re-used. Observe local/state/federal regulations.

## 14: Transport information

Dangerous goods code :	not regulated
UN Number:	not regulated
Packing mark:	PVC
Categories of packing:	Z01
Cautions during transportation:	Complete package. Avoid solarization, rain and high temperature.

## 15: Regulatory information

Follow all regulations in your country.

## 16: Other information

### 16.1 Material

The details in this document are based on the state of our knowledge at the time of revision. They do not constitute an assurance of the described product properties in terms of statutory warranty requirements. The providing of this document to a recipient does not relieve the recipient of his or her responsibility toward compliance with all laws and stipulations applicable to the product. This applies in particular to the further sale or distribution of the product or substances or items containing the product, in other jurisdictions and with regard to the protection of third-party intellectual property rights. If the described product is processed or mixed with other substances or materials, the details stated in this document cannot be conferred to the resultant new product unless this has been expressly mentioned. If the product is repackaged, the recipient is obligated to additionally provide the required safety-related information.

### 16.2 Further information

None
